

## **ALICIA VENGUST**

Alicia commenced being a junior administrator in 2002. Her skills and dedication soon led to her appointment as a major venue supervisor, in particular looking after Eltham High on the busy VJBL Friday night. Beginning as a venue supervisor in the Eltham Tournament, Alicia moved to a major office role, tabulating results and calculating finals' positions. Then, after refinement of the entry process, she took charge of processing these entries which often required communication with those clubs who had entered. Alicia also made time to assist the senior elite program as a statistician from 2005 and advanced her skills so much in that area that she was selected to be a statistician at NBL, Australian and international levels. She carried out all these duties in a pleasant and unflappable manner. In 2017 Alicia became a Life Member, and in 2022 is still performing most of those tasks.
